

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

1. (Currently amended) A method for treating a face pain, the method comprising the step of peripheral administration of a therapeutically effective amount of a botulinum toxin to the face of a mammal with a face pain is not due to a headache, wherein the peripheral administration is carried out by intramuscular administration of the botulinum toxin, and wherein the face pain is not associated with a muscle disorder, thereby alleviating the face pain.

2-3. (canceled)

4. (previously presented) The method of claim 1, wherein the botulinum toxin is selected from the group consisting of botulinum toxin types A, B, C₁, D, E, F and G.

5. (previously presented) The method of claim 1, wherein the botulinum toxin is botulinum toxin type A.

6-8. (canceled)

9. (previously presented) The method of claim 1, wherein the pain is alleviated for between about 1 month and about 6 months.

10-11. (canceled)

12. (currently amended) A method for alleviating a face pain, the method comprising the step of peripheral administration of a therapeutically effective amount of a botulinum toxin type A to the face of a human patient with a face pain is not due to a headache, wherein the peripheral administration is carried out by intramuscular administration of the botulinum toxin type A, and wherein the face pain is not associated with a muscle disorder, thereby alleviating the face pain.

13. (previously presented) The method of claim 12, wherein the botulinum toxin is selected from the group consisting of botulinum toxin types A, B, C₁, D, E, F and G.

14-30. (canceled)

31. (currently amended) A method for treating a face pain, the method comprising the step of peripheral, intramuscular administration of a therapeutically effective amount of botulinum toxin to a region of a face pain is not due to a headache, wherein the face pain is not associated with a muscle disorder, thereby alleviating the pain in the face.

32. (previously presented) The method of claim 31, wherein the botulinum toxin is a botulinum toxin type A.
